

Fjordlight Grand Hotel

Tromso, Norway | Winter 2027/28 underwriting package

Field	Verified property record
Property type	Seasonal aurora-view hotel
Sellable rooms	96
Non-revenue staff rooms	4 (excluded from sellable inventory)
Season	2027-11-01 through 2028-03-31
PMS	Mews synthetic export
Operator history	11 completed winter seasons
Reporting currency	USDC-equivalent

Inventory control note

The property has 100 physical keys. Four are designated staff accommodation and are not revenue inventory. The underwriting room count is therefore 96 sellable rooms.

Operating profile

The hotel operates year-round at reduced capacity, with the underwritten aurora season concentrated from November through March. Winter lodging revenue is primarily direct web, tour operator, and OTA business.

Historical operating controls

Management provided the following control observations for the synthetic evaluation case.

Control	Status	Underwriting relevance
PMS monthly close	Completed	Monthly summary is the forward-booking control
Bank lodging match	92% historical match	8% gap requires reconciliation
OTA settlement review	One disputed chargeback	January settlement remains open
External financial audit	Not completed	FY2026 statements are management-prepared
Booking duplicate review	Open	Booking BKG-3118 appears twice in the raw extract

Source hierarchy

For forward revenue, use the PMS Monthly Summary net booked revenue after cancellations and refunds. The Bookings Raw sheet is an exception sample and must not be treated as a complete revenue ledger.

For historical reconciliation, use the bank ledger's PMS lodging revenue and verified lodging inflow columns. Non-lodging inflows are excluded.

Document schedule and open items

Document	Status	Date / expiry
Property profile	Provided	2027-07-01
PMS export	Provided with duplicate exception	2027-07-15
Bank ledger	Provided	Historical 2026/27 season
